

STATEMENT OF COMPLIANCE

The company Sysconv Srl, placed in San Pietro al Natisone (UD) - Industrial area of Azzida, declares that its own equipments are consistent with the following regulations:

CEI 8-6 (IEC 38)	Nominal voltage for the national distribution of low voltage electric power system
CEI 14-4 (IEC 76)	Voltage transformer
CEI 20-22	Test on flameproof cables
CEI 22-2 (IEC 146)	Electronic power converters and semiconductors
CEI 44-5 (IEC 204-1)	Electrical equipment for industrial machines
CEI 64-8 (IEC 364)	Electrical installations
CEI 64-8 (IEC 364)	Electrical plant with nominal voltage not beyond 1000V. AC and 1500 V. DC
CEI 70-1 (IEC 529)	Protection level of the wrappings
CEI 73/23	Electrical material, whose the nominal voltage works in AC between 50 and 1000 Volt, and in DC between 75 and 1500 Volt
CEI 74-2 (IEC 950)	Equipment for information technology, included the office electrical equipment
CEI 68-2-32	Fall test
IEC 801-2	No electrostatic discharge
IEC 801-3	No magnetic field
VDE P.2 par. 6.5	Ripple current in battery
Dir. 89/336 and 92/31	Electromagnetic compatibility
EN 50091-1	Uninterruptible static systems. General and security law
EN 50081-1	
EN 50082-1	Reduction of electromagnetic emissions
VDE 0871B	
EN 55022	Class B radio frequency noise reduction

With effect from 1st January 1996, all the equipments are provided with CE mark in compliance with the European Regulations, obligatory from such date.
